ITEMS AVAILABLE WHILE SUPPLIES LAST!

Dear Model Railroader,

Tis the Season for Model Railroading! The holiday season is upon us and Atlas is stocked and ready for the red and green of Christmas season! To that end, we have collected a selection of holiday inspired model railroading items for gift giving or simply to help you set the scene under your tree!

The pages within offer a selection of train sets and track starter sets, as well as scenic accessories and more for those of you who are ready to bring the world of miniature railroading around the Christmas tree.

If you want to see your child's face light up brighter than the star on your tree, you're going to want Santa to bring them the Atlas Trainkids Glow in The Dark Passenger Train Set this Christmas. This battery powered set easy to operate, fun to play with and geared towards children aged 4 and up! (But that doesn't mean adults can't join in the fun as well. Don't worry, we won't tell.)

We hope that you enjoy the product selections on the pages within, and as always, thank you for your continued support of Atlas!

Happy Modeling & Happy Holidays,

Jarrett Haedrich
Executive Chairman

"Hark! The Herald Angels Sing" & "Glory to God in the Highest"

These colorful cars are fashioned after the Angel Musicians (Anges Musiciens) painting by Hans Memling, a Flanders artist, 1430-1494. The reporting marks found on the cars, LK213 and 214, reference the Gospel of Luke, Chapter 2, verses 13 and 14.

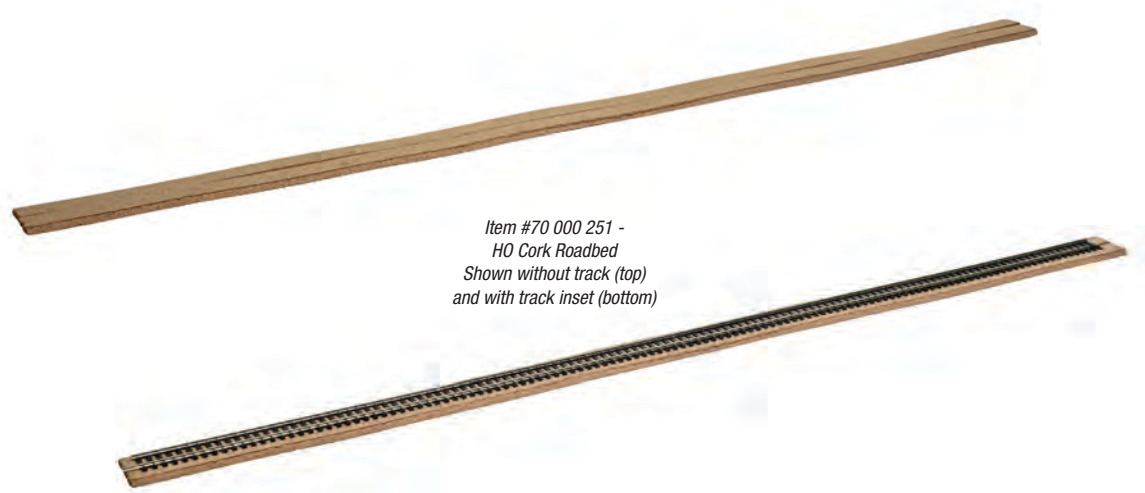
ATLAS HO & N SCALE PRE-CUT CORK ROADBED



Item #70 000 251 -
HO Cork Roadbed
Shown without track (top)
and with track inset (bottom)

N Dimensions:
- 36″ long
- .120″ tall
- 1 3/16″ wide after splitting and reassembling

HO Dimensions:
- 36″ long
- .2″ tall
- 1 7/8″ wide after splitting and reassembling

Why Choose Atlas Pre-Cut Cork Roadbed?

- **Prototypical Appearance** - Atlas Cork Roadbed is precision-cut with a beveled edge to replicate the sloped profile of real railroad ballast. Once split and shaped, it creates an authentic raised track bed that enhances the realism of any layout.
- **Smooth, Quiet Operation** - Cork naturally absorbs vibrations, reducing operational noise and providing a smoother running surface for your locomotives and rolling stock. It's the ideal choice for layouts built on plywood or foam.
- **Easy to Work With** - Lightweight, flexible, and simple to trim, Atlas roadbed conforms effortlessly to curves. It glues to most surfaces and accepts track nails and adhesives with ease—making reliable track-laying fast and frustration-free.
- **Long-Lasting & Environmentally Friendly** - Our cork is a renewable, biodegradable material that resists warping, cracking, and drying out over time. It stands up to adhesives, paint, and ballast without losing stability.
- **Perfect for Ballasting** - The slightly textured surface of Atlas Cork Roadbed provides excellent grip for ballast and scenic materials, helping modelers achieve a professional finish.
- **Ideal for Every Style of Layout** - Whether you're building your first layout or a creating a basement empire, Atlas Cork Roadbed gives you a dependable, prototypical base for any track system.
- **Build on a Better Foundation** - Atlas Cork Roadbed combines simplicity, realism, and high performance, giving your railroad the solid base it deserves.

ATLAS HO SCALE VIADUCT KITS

Ordering: https://shop.atlasrr.com/d-615-holiday-gift-catalog.aspx

Item # 70 000 223
Single Track Concrete Viaduct

Throughout the history of railroad structural engineering, the viaduct has long been a favored way to cross steep valleys or wide rivers. Consisting of a series of elevated arches or piers supporting a long flat roadbed between two points of roughly the same elevation, classic viaducts were impressive structures made of stone or reinforced concrete construction. Although taking more time to build than a wooden, iron, or steel open frame bridge, masonry viaducts could safely span greater distances and handle greater loading with less maintenance over their lifetimes. Indeed, the longest stone masonry viaduct railroad bridge in the world (at 3820 feet) is the famous Rockville Bridge across the Susquehanna River, which was built in 1902 by the PRR and is still in use with Norfolk Southern. Other stone masonry viaducts still in use include the Santa Ana River Viaduct on the UP and the Starucca Viaduct on the NYS&W.

The Atlas Viaduct is available in three different surfaces – Concrete, Cut Stone, and Rough Stone – and in single and double-track widths.

Features:

- Available in single track or double track widths
- Kit contains single arch and two half-arch ends – combine kits for longer applications
- Can be used w/o pier units for lower heights such as in urban settings
- Concrete double track viaduct also suitable for O scale single track applications
- Length - 18”
- Width – overall (Single) = 3 ¼”, (Double) = 5 ¼”
- Width – btw. walkways (Single) = 2 1/8”, (Double) =4 1/8”
- Height (w/ piers) – to deck = 9 5/8”, to top of railings = 10 3/8”
- Height (w/o piers) – to deck = 3 ½“, to top of railings = 4 ¼”

ATLAS O SCALE TURNTABLE

Ordering: https://shop.atlasrr.com/d-615-holiday-gift-catalog.aspx

(Operator Shed)

O TURNTABLE

In the steam era, many railroads used turntables to turn locomotives for their next journey. Railroads still use turntables to assist in the maintenance of diesel locomotives and rolling stock. Based on a Santa Fe prototype, Atlas O has realistically duplicated its above ground details, so adding a working turntable has never been simpler. What's more, everything is included for easy tabletop installation.

FEATURES:

- Larger and more powerful motor
- Flat cogged anti-slip belt
- Deck support with more roller bearings for greater support of heavier locomotives
- Redesigned metal contacts to power the rotating track
- Drive assembly is hidden under the utility shed
- Table diameter: 24"
- Proven Geneva-gearing for positive indexing
- Can be used for both 3 rail and 2 rail operation
- Will run on AC or DC power
- Compatible w/ TMCC & DCS (using TMCC or DCS acessory interface)
- Compatible with DCC (using a stationary decoder)
- Molded in appropriate colors
- Complete hook-up instructions
- Easy tabletop installation
- Motor Drive included in box for smooth and easy operation
