**CSX Licensed Product*

Products bearing Union Pacific (UP) marks are made under trademark license from Union Pacific Railroad Company.

In 2013, Greenbrier Companies introduced their new design of 89′ auto rack, the Multi-Max™. The new design allows for changing configurations from a Bi-Level to a Tri-Level (and back) without adding or removing decks. The racks are fully compatible with existing 89′ auto racks. To this date, most of the racks have been built on Greenbrier Companies' own specially designed 89′ flat cars. These cars are commonly seen in cuts of other similar autorack cars or a solid unit train of autorack cars. Currently, almost 10,000 cars (with racks) are running on North American rails. This SURPRISE run of Atlas' model is a follow-up to our sought after sold-out 1st run.

Features:

- Designed in the USA
- Four body style variations to match different prototype configurations
- Highly detailed side screens to maximize prototypical appearance in scale
- Metal couplers
- Accurate painting and lettering
- Minimum radius: 18″

This stunning, prototypically accurate model looks great and runs smoothly on your HO layout!

ATLAS MASTER® O TRINITY 25,500 GALLON TANK CAR

Product Information: https://shop.atlasrr.com/c-1127-0225.aspx

NEW PAINT SCHEMES!

LIMITED EDITION, LIMITED AVAILABILITY! ORDERS MAY BE ALLOCATED.

Atlas Master O Trinity 25,500 Gallon Tank Car
TILX "Louisiana Hot Sauce"

TILX tank cars are used in food service to transport vegetable oil and other liquid ingredients. A number of these tank cars received the colorful Louisiana Hot Sauce logo - but they are not in fact filled with hot sauce, contrary to popular belief. Instead, they are exclusively used to transport vinegar, one of the key ingredients in hot sauce. Atlas' model is a faithful recreation of the prototype and is ready to spice things up on your layout!

Side 1

Side 2

Atlas Master O Trinity 25,500 Gallon Tank Car
ADMX "Kung fu Fighters" Graffiti Car

Atlas' Research & Development Team does a fair share of railfanning before and after work and on their lunch breaks. During one of these outings Atlas' CEO, Paul Graf, captured this ADMX tank car with unique and humorous Kung Fu fighter graffiti awaiting delivery to a local salad dressing factory in Hillside, NJ. We have carefully recreated this unique car in limited quantities, available now from your Atlas Authorized Dealer.

Atlas' model of the Trinity 25,500 gallon tank car features an insulated, general-purpose design. This was introduced in 1986 and production continues today. There are at least 13,000 presently in service. Typical commodities include vegetable oil, tallow, styrene, benzene, asphalt, biodiesel, acrylates, and numerous other chemicals.

Features:

- Accurate painting and printing
- Numerous detail fittings and components specific to prototype
- Highly detailed body with prototypical jacket seams
- Metal end sills, lower side safety rails and safety rail support
- Length over couplers: 15.5″
- Minimum radius curve: 36″ (2-Rail)
- Minimum diameter curve: 0-54 (3-Rail)

Prototype tank car awaiting delivery to a local Hillside, NJ salad dressing factory.
