L	Right Turnout Switch 543	1
M	90° Crossing	1
N	60° Crossing	1
O	Warren Truss Bridge	1
P	Bumpers	2
Q	Terminal Joiners	1

Installation Instructions for Atlas Code 83 Bumpers:

The Atlas Code 83 bumpers have been designed to install in almost any sectional straight piece of Atlas code 83 track. To install the bumpers, locate the rear of the bumper over the last 2 ties on the track (the ones next to the openings for the rail joiners), angling it slightly to one side so the leg on the front end of the bumper fits under the rail. Using a small flat head screwdriver, gently push the other leg down until it snaps under the opposite rail. Your bumper is now firmly installed in your track.

Terminal Joiners may be placed in any convenient location.
