

**Atlas All Scales Track & Accessory Order Form - Table of Contents**

Atlas Model Railroad Co. Inc. is the foremost U.S. model track maker with 9 separate lines of track in the three primary track gauges-HO, N and O. Atlas carries three distinct lines of track and accessories within each gauge to meet the wide variety of model railroader needs. These track lines are divided into "codes" which differ in rail height, tie width and color. In general, the smaller the code, the finer looking the track. Eight of the 9 lines of track are made of a premium solid nickel silver alloy rail for superior electrical conductivity, realistic rail sounds of moving trains, and long lasting layouts. Scale refers to the proportion of the model to the prototype. Gauge is the width of the track, measured between the rail-heads. Additionally, Atlas carries an extensive line of N, HO and O scale motive power and rolling stock. Please visit us at: [www.atlasrr.com](http://www.atlasrr.com)
