OTTX Weathered

60' Flat Car With Wood Deck

N SCALE

This TSH60A-class 60' Thrall flat car was designed to haul large vehicles such as farm, military, and construction equipment. With a wood deck and tie-down channels, the cars can be used for a number of other purposes, including hauling structural steel shapes and other bulky industrial loads. With an OTTX reporting mark, these TTX-owned flat cars were built in April of 1974 by Thrall. TTX was established in 1955 as "Trailer Train," and as their business evolved simply became "TTX" in a 1991 rebranding effort.

Chessie "Safety Program" Caboose 3-Pack #1: 31' Bay Window Caboose

N SCALE

In 1973 and 1974, Chessie System painted a number of cabooses into unique and vibrant color schemes with safety minded slogans adorning the sides as a part of its Employee Safety Awareness Program. In a further effort to increase awareness, they were used in an employee "caboose spotting contest," and the winner received a "modern clock radio". Some of these cabooses made it to the CSX roster in the 1980s. CSX was formed through the 1986 mergers of Chessie System and Seaboard System / Family Lines, and continues to operate today across more than 21,000 miles of track in the eastern United States.
