SPECIAL EDITION!

IMPORTANT INDUSTRY ANNOUNCEMENT ON INSIDE LAST PAGE

Wisconsin Central Road Numbers 54080, 54214

This 52' 6" mill gondola was built in 1995 to a design very similar to Trailer Train's GONX gondolas. The cars were built to be heavy-duty and long lasting, carrying steel ingots, scrap steel and coiled steel. Wisconsin Central Ltd. started operations in the mid-1980s, and became a subsidiary of Canadian National in 2001.

54080 #170 00 020...\$32.95
54214 #170 00 021...\$32.95

Burlington Northern Road Number 190212

Built in late 1959 for a predecessor road and repainted and serviced by Burlington Northern in 1973, these plug and sliding door cars were used for lumber and other sensitive commodities. Burlington Northern was formed through the mergers of Great Northern and Northern Pacific in 1970, and then merged with ATSF in 1995 to form BNSF.

#191 00 010...\$27.95

Union Pacific[®] Road Number 506648

Built in the mid-1960s, this 50 foot double door boxcar featured a cushioned underframe and the "Automated Rail Way" logo. Union Pacific continues to operate today as one of the largest Class 1 railroads in North America with over 32,000 miles of track.

#037 00 170...\$30.95

Fort Worth & Denver - Burlington Road Number 5009

In 1899, the Fort Worth & Denver Railway was acquired by the Colorado and Southern Railway. In 1908, the C&S was bought by the Chicago, Burlington and Quincy, known as the Burlington Route. It continued to operate as a separate subsidiary, as did the FW&D. At the time, all railroads operating in Texas were required to be headquartered there. Eventually, the conglomerate was merged into Burlington Northern.

#076 00 180...\$29.95

Penn Central/ex-New York Central Road Number 208770

This Penn Central double door boxcar was built for New York Central in the late 1950s before being patched for Penn Central around a decade later. New York Central merged with its rival, the Pennsylvania Railroad, in 1968 to form Penn Central, which went bankrupt two years later and was merged into Conrail in 1976.

SIDE A

Conrail Family Tree #4
#034 44 510...\$30.95

Seaboard/ex-Railbox Road Number 141573

Seaboard Air Line was founded in 1900 and existed until 1967 when it merged with the Atlantic Coast Line Railroad, forming the Seaboard Coast Line Railroad. At its height, it had over 4,000 miles of track across the South. Railbox was established as a free-running nationwide pool of general service boxcars to help alleviate box car supply problems.

SIDE B

SIDE A

Railbox Repatch #9
#025 44 445...\$30.95

Soo Line
Road Number 74212

Built in late 1974 for the Minneapolis, St. Paul and Sault Ste. Marie Railroad - known as the Soo Line - it featured gravity outlets and food-safe interior linings. The Soo Line was in operation from 1949 until 1990, when it was consolidated into Canadian Pacific as a subsidiary, now under Canadian Pacific Kansas City (CPKC) control.

#094 00 155...\$34.95

Seaboard
Road Number 120202

Built for a Seaboard heritage railroad, this 50' boxcar was last serviced in 1984, and was marked "Explosives Loading Only," likely servicing the Holston Army Ammunition Plant in Kingsport, Tennessee. Seaboard Air Line was founded in 1900 and existed until 1967 when it merged with the Atlantic Coast Line Railroad, forming the Seaboard Coast Line Railroad. At its height, it had over 4,000 miles of track across the South.

#180 00 335...\$29.95

Bar Bee Meat Packing Company
Road Number 67306

This steel ice reefer was serviced by GATX in the late 1950s and repainted for the Bar Bee Meat Packing Company, based in Des Moines, Iowa. General American Transportation Corporation, now known simply as GATX Capital Lease, is a large railcar leasing company, with over 122,000 railcars in the fleet.

#059 00 300...\$30.95

CPKC - Track Evaluation Car
Road Number 63

This CPKC track geometry evaluation car is automated and outfitted with various sensors to examine track conditions such as position, curvature, alignment, smoothness, track gauge, as well as defects such as incorrect rail profile, rail warp, and other parameters. It can then record and transmit this data in detail and mark areas needing repair or adjustment. CPKC was founded in 2023 when a holding company was formed to operate Kansas City Southern and Canadian Pacific Railroad subsidiaries within it.

Southern Pacific 'Overnights'
4-Car Runner Pack #242

These cars were built in 1946 for Southern Pacific, and in 1955, painted in the Southern Pacific Overnights paint scheme – an all-silver car with black ends and daylight orange SP herald. These fast freight cars were seen in use throughout the 1960s. Southern Pacific was a Class 1 railroad from 1865 until 1996, when it was absorbed by Union Pacific after falling on hard times financially in the 1970s and 1980s.

Transportation Technology Services/BNSF with Wind Turbine Parts

Transportation Technology Services was an international rail-specialized multi-modal logistics and transportation company and was acquired by BNSF in 2015. TTS was a respected specialty service provider, focused on the wind energy market and the loading and management of complex and large cargo shipments such as wind turbine blades, hubs, generators and accessories. This weathered train is an eye catcher!

Atlas Model Railroad Co. Acquires Assets of Micro-Trains Line Co.

Talent, OR — November 19, 2025 — Micro-Trains Line Company, Inc. announced that it has been acquired by Atlas Model Railroad Co, which includes substantially all assets of Micro-Trains Line Co., the Talent, Oregon-based manufacturer renowned for its precision N and Z scale model trains and couplers. The transaction marks a significant expansion of Atlas's manufacturing and product development capabilities within the U.S. hobby industry. Under the agreement, Atlas will assume ownership of Micro-Trains' molds, tooling, and associated intellectual property, ensuring continued production of the brand's hallmark products. Production will transition into Atlas's global manufacturing and supply network, ensuring continued availability and consistent quality standards worldwide.

Eric D. Smith, President of Micro-Trains Line Co., added: "Our family and team are proud of what Micro-Trains has meant to hobbyists everywhere. Atlas's commitment to excellence and long-term investment in the model railroad community makes them the right partner to continue our story."

In a joint message, Eric and Vicki expressed their gratitude to the many friends, customers, and industry partners who have supported Micro-Trains over the years. They shared that, as they look forward to their well-earned retirement, they do so with confidence knowing the brand will continue to thrive within the Atlas family. Both companies emphasized that the integration will focus on preserving the authenticity of Micro-Trains' designs while leveraging Atlas's engineering, logistics, and production capabilities to broaden innovation and future product offerings.

Smith also wants to thank our industry counterparts, many of whom we have worked so closely with in making this hobby a true enjoyment to be part of. And a very special thank you to the model railroad consumers; your interest and patronage of our model trains is much appreciated. Micro-Trains in Talent, OR, will continue to accept and process orders until our finished model train single-car releases, multi-packs, trucks, couplers tools and accessories are sold out. This includes our December releases.

In closing, we once again extend our sincerest thanks to all, and wish everyone great success in all your future endeavors.

Sincerely,

Eric & Vicki Smith

Former Owners of Micro-Trains Line Co.

EDITOR'S NOTE:

For more than half a century, Micro-Trains Line has had the privilege of serving the N and Z scale model railroading community. Every coupler...every weathered boxcar...every innovative structure kit carried with it pride in craftsmanship and deep respect for the hobby we all love.

What has meant the most to us isn't just the trains themselves, but the friendships, stories, and shared passion that grew along the way.

We are profoundly grateful to our customers, dealers, and friends who have supported us through the years, making Micro-Trains Line a cherished name in model railroading. Your passion, creativity, and loyalty have been the driving force behind our work, and it has been an honor to be part of your layouts, collections, and lives.

The Micro-Trains Line name will live on in the capable hands of Atlas Model Railroad Company, and we encourage everyone to stand behind Atlas as the new guardian of our brand. We have full confidence they will carry forward the same dedication to quality, detail, and innovation that you have come to expect from us. Written by Brandon T. (Creative Services Lead) & Elizabeth P. (Marketing & Sales)
